

Walnut Team

Mr. Lee/Social Studies

Having just finished our study of the Civil War, we are now spending the remainder of the year learning how our great country developed and grew in the late 1800's. If time allows, we will then get a glimpse of the highlights of the 20th century. Social studies projects are due May 18th and any help parents can give in helping their student meet that deadline will be greatly appreciated. It has been my pleasure to have your student in class this year.

Ms. Wright/ Reading

It's hard to believe it's already May! We are ending the year studying Greek and Roman mythology. We will be reading various myths while making comparisons and contrasts to our present day culture and beliefs. I have enjoyed working with your child this school year. I wish them the best at the high school!

Mrs. Herter/Language Arts

The school year has flown by. We are ending the year by focusing on sentence structure. We will be writing many journal entries focusing on complex and compound sentences. I have learned so much about each student by reading their journal entries. I have truly enjoyed having each student in class. Good luck in high school!

Mrs. Mercado/Math

We are learning things that will help when they take algebra next year. We are also going to be making a game. They will work with a partner and make a game. Also, we are going to do a finance segment that will be very beneficial to their real life. I will miss them. They have been a great group of kids.

Mr. Small /Science

We are learning the digestive, circulatory, and reproduction systems during May.
